Technical Profile

Electronics and Telecommunication undergraduate with strong problem-solving skills and a focus on backend development and scalable, real-time web applications. Solved 1200+ DSA problems and actively participate in competitive programming across Codeforces, CodeChef, and LeetCode. Experienced with Django, Django Channels, Redis, PostgreSQL, and React.

Education

Sardar Patel Institute of Technology Sept 2024 – July 2028
B.Tech in Electronics and Telecommunication Engineering
CGPA: **8.0/10**

Kendriya Vidyalaya Koliwada 2022 – 2024
Class XII (CBSE)

Projects

LiveBid – Real-Time Auction Platform GitHub

- Built a full-stack live auction platform using **Django Channels (ASGI/Daphne)**, **Redis**, **PostgreSQL**, and **React 19 (Vite)**, with WebSocket-based real-time bid broadcasting to all connected clients.
- Designed an **atomic Redis Lua script** for bid validation to eliminate race conditions under concurrent bidding; only winning bids are persisted asynchronously to PostgreSQL, keeping rejected bids off the database.
- Implemented auction integrity features: **anti-sniping** time extension, seller shill-bid prevention, self-outbid lock, and automatic auction finalization without cron jobs or Celery.
- Developed a responsive React frontend with live bid ticker, countdown timer, dynamic bid increments, catalog search with category filters, user authentication, and a dashboard to track leading, outbid, and won auctions.

Expense Tracker Live Demo

- Built a full-stack expense tracking web application using **React**, **Django REST Framework**, and **PostgreSQL (Neon)**.
- Implemented secure JWT-based authentication, expense CRUD operations, and category-wise expense management through REST APIs.
- Deployed the frontend on **Vercel** and integrated it with a cloud-hosted **Neon PostgreSQL** database.
- Designed a responsive user interface using **Tailwind CSS** and managed version control with Git and GitHub.

Competitive Programming

- Solved **1200+** DSA problems across LeetCode, Codeforces, and CodeChef.
- **CodeChef: 2-Star** (Highest Rating: 1461).
- **Codeforces: Pupil** (Highest Rating: 1246).

Skills

Languages: C++, Python, JavaScript

Frameworks & Libraries: Django, Django REST Framework, Django Channels, React, Tailwind CSS

Databases & Tools: PostgreSQL (Neon), Redis, WebSockets, Git/GitHub
